DETAILED ACTION

Allowable Subject Matter

Claims 1-55 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest a device having each of the claimed features. In particular, there is no suggestion of a device comprising a gimbal mechanism including a plurality of members which rotate about a common pivot point in the manner recited. With respect to claim 21, there is no suggestion of a band drive mechanism having the claimed features. Claims 35 and 46 are allowable for similar reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mor, Shahoian and Rosenberg disclose various interface mechanisms.
